It is certified that an error appears or errors appear in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

(57) ABSTRACT

A distributed storage system for storing at least one credential-(46), provided by an issuing authority and relating to an identity-(42, 44), is described. The system comprises: a plurality of unique identities (42, 44)-each having a local store-(40). Each local store (40)-securely stores credentials (46)-relating to the owner of the identity-(42, 44). The system also comprises one or more security certificates (66)-provided at each identity (42, 44)-for ensuring the authenticity of the credentials-(46). The security certificates (66)-provide secure references to the issuers of the credentials (46)-and this can be used in verifying the origin of each credential-(46). The identity can be provided a website or a mobile phone for example.
